Product Description

CID X-Treme Duty Snow Plow Attachment

Our X-treme Snow Plow allows you to efficiently clear driveways and parking lots. Easily angle the plow from within your cab using the 3" x 6" hydraulic cylinder. The top of the plow is rolled to prevent snow from coming back toward the cab. It features a 1/2" bolt-on cutting edge and adjustable snow shoes as standard. The 144" model is available in hydraulic only.
