Product Description

CID Swing Boom Brush Cutter Attachment

Our Swing Boom Cutter is a great implement to add to your collection. It is designed for cutting banks, fence lines, and right of ways. It also works great for clearing pond banks and cutting trails. This cutter has a significant reach advantage over our typical cutter. With a reach of 96" when extended horizontally and a vertical reach of 16', it makes clearing unwanted tree limbs less of a hassle. The cutter will also swing to the right and can be used as a side cutter. It is powered by a high torque motor with built in relief valve with a maximum supply pressure of 4000 PSI. A flow of 14-20 gpm is required. The one year warranty does not cover the blades and hoses.
