Product Description

Werk-Brau: Excavator Frost and Rock Ripper

Recommended Applications

Werk-Brau's Ripper is specifically engineered to pre-rip frozen ground, pavement, or other tough soil that exceeds a bucket's recommended duty. The Ripper is highly versatile attachment. The Ripper's single point tooth style is ideal for penetration of various tough environments.

Quality Construction

Werk-Brau uses T-1 steel in all critical or high wear components to ensure that the ripper has a long operation life. The ripper body is supported by rigid gussets for extra rugged applications. The upper gussets, and shank are designed for heavy duty applications in tough working conditions.

Cutting Equipment Options

A single point tooth is used to maximize the machine's penetrating power. A selection of high quality brands are available to choose from.
