Product Description

DH232 Double-Sided Hedge Trimmer

Shindaiwa hedge trimmers feature extra-sharp, double-reciprocating blades that slice “lightning quick” for precise-looking cuts and edges. They are available in either double-sided or single-sided configurations as well as two blade lengths for each. The blades are nickel-plated for long-lasting durability. Rubber grips allow for great comfort and control. The DH232 and DH235 feature a 180° rotating handle. The HT232 and HT235 are lightweight and equipped with a standard debris sweeper for easy clean-up.

Features:

- 21.2 cc professional-grade, 2-stroke engine
 - 180 degree rotating rear handle
 - Reduced effort starter
 - Spring anti-vibration system
 - Forward-facing exhaust tube
 - 22.8" Nickel-plated blades with aluminum support bar
-
